PROJECT DETAILS

Analyst / Software Engineer
(May 2022 - Present)
CAPGEMINI - Bangalore

AN ULTIMATE ONLINE MULTI-DISCIPLINARY EXAM PRACTICE WEBSITE - Project
(DEC 2020- APR 2021)

- This project developed to improve the student's Knowledge by taking continuously test.
- This website offers a paid as well as unpaid quiz test for the student.
- Admin/owner/Teacher will be upload the set of questions and set a paid/ unpaid criterion for the quiz.
- Student will attend the test by registering into the website by entering the proper credentials asked and the admin people will approve the student to start the quiz by verifying the inputs entered during the registration process.

SPAM DETECTION USING MACHINE LEARNING – Mini Project

- The availability of resources through internet and the broadband connections allowed the appearance of sophisticated new platforms.
- Since YouTube offers limited tools for comment moderation, the spam volume is shockingly increasing which lead owners of famous channels to disable the comments section in their videos.
- Automatic comment spam filtering on Youtube is a challenge even for established classification methods, since the messages are very short and often rife with slangs, symbols and Abbrevations.

Capgemini
